

Retouching Pens

LightCut Pen

Product Description

LightCut Pens are retouching pens of the second generation. The main differences to existing retouching pens are:

- Ruby or black, transparent super density retouching mask
- Better covering
- Available tips from 0,03 to 0,7 mm diameter

The pens are especially suited for retouching work on diazo films (red) or silver halide films (black). The patented valve control system guarantees the required liquid volume of the fast drying, waterproof retouching mask.

The surface of the ink is immediately dry after retouching. Nevertheless it is advisable to leave the retouched films for a few minutes prior to use so that the mask will be thoroughly dried.

Benefits

- Ruby or black transparent with very high light absorption in the wave length around 580 nm for retouching work on diazo films
- Unique, patented mechanical flow regulation
- Always ready to use
- Fast drying
- Waterproof
- Very good covering
- Inexpensive

All pens are supplied with a protective cap which should be put back after use to prevent the retouching liquid fluid from evaporating.

Available Pens and Packaging

Product	Diameter mm	Item-No.	Packaging
LightCut-003-R	0,03 mm, rot	103557	12 pc
LightCut-003-S	0,03 mm, schwarz	103559	12 pc
LightCut-005-R	0,05 mm, rot	103558	12 pc
LightCut-005-S	0,05 mm, schwarz	103560	12 pc
LightCut-010-R	0,1 mm, rot	103553	12 pc
LightCut-010-S	0,1 mm, schwarz	103561	12 pc
LightCut-030-R	0,3 mm, rot	103554	12 pc
LightCut-030-S	0,3 mm, schwarz	103562	12 pc
LightCut-050-R	0,5 mm, rot	103555	12 pc
LightCut-050-S	0,5 mm, schwarz	103563	12 pc
LightCut-070-S	0,7 mm, rot	103556	12 pc
LightCut-070-S	0,7 mm, schwarz	103564	12 pc
